JUTHEAU HUSSON CAN HELP YOU NEGOTIATE YOUR CLAIMS WITH INSURERS UNTIL THEY ARE SETTLED

Depending on requirements, we take charge of appointing experts and organising and participating in appraisal meetings. We provide you with regular feedback on the progress of the case and manage the coordination of exchanges and follow-ups with all involved parties: experts, insurers, advisers, lawyers, etc.

After these various stages of investigation, we negotiate and submit the insurers' compensation proposals to you. If necessary, your dedicated team can prepare a case to defend your interests for the insurer. Finally, we support you all the way until the end of the process, ensuring payment of your compensation.

In addition to claims management, Jutheau Husson can help you monitor and analyse your overall claims history. This enables us to anticipate any slippage in your claims history regarding the amount of your premium and the potential risk of an increase. Jutheau Husson also works on prevention and protection policies to define measures to avoid claims or reduce their impact.

DESCRIPTION OF CLAIMS MANAGEMENT

In the case of claims that require complex discussions, or where the insurer appears to refuse unreasonably to pay out your compensation, we have set up a network of partner law firms, all specialists in insurance law, which we can quickly call on to assist us in defending your rights.

This service is fully covered by Jutheau Husson.
